

Announce Our New Program

Physical Therapy

Providing physical therapy evaluations and treatment for medical problems and other health related conditions that limit your ability to move or perform functional activities in daily living

We Will:

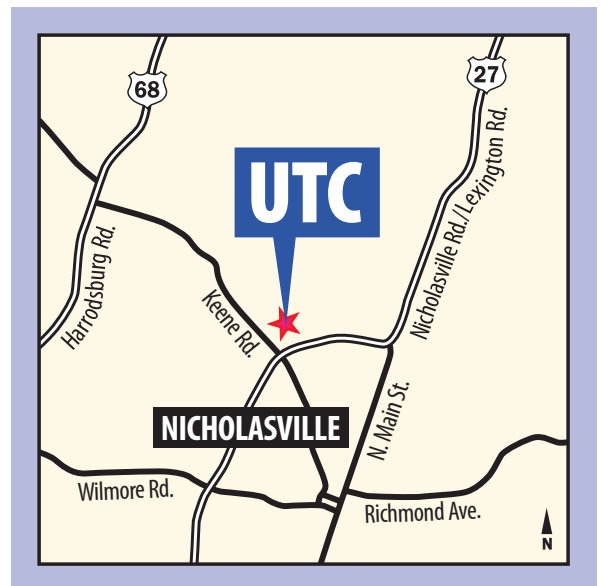

- Promote your ability to move
- Reduce pain
- Restore function
- Prevent disability

We Evaluate and Treat:

- Specific areas of the body
 - Back and neck
 - Knee and foot
 - Hand, elbow, wrist and shoulder
- Sports injuries
- Repetitive stress injuries
- Balance, falls and injury prevention

We provide stroke rehabilitation and treat neurological impairment (i.e. Parkinsons)

Immediate appointments, timely treatment, back to daily activities in your hometown
